

# Insight for Output Feedback Learning

Speaker: Mag. Norbert Meister

- With the concept of „wir“ we try to improve feedback processes between instructors and skiers who take lessons.
- The main aim of our feedback should be to trigger internal monitoring processes in our athletes.
- "Therefore it is necessary to take a different approach to correct motion sequences/movements."
- The lecture will give a short theoretical summary of our ideas. In the workshop we introduce the „wir“ approach on the slope.

CURIOUS?

**Thank you for joining this lecture.**

**We are looking forward to see you on the slope.  
We like to show our new feedback concept "WIR".**
